- Title 18 U.S.C. 2257 Compliant

THE CONCEPT

The Adult category dominates Video On Demand and currently generates more than 50% of the VOD revenue pie. With cable operators looking to find new and original ways to retain and grow subscribers, Trans Digital Media, (home also to Wicked On Demand and Playgirl TV), has created **CHERI INTERNATIONAL**.

CHERI INTERNATIONAL is the first true foreign language Adult Video On Demand service. **CHERI INTERNATIONAL** connects to original content from all over Europe, Asia, and Latin America. These titles have **never before been seen** in the U.S.

WHY INTERNATIONAL CONTENT?

International content is dynamically different from American content in ways beyond geographical location and exotic looks. Many International producers continue with the more stylized look of eras past, use large budgets, and many prefer to shoot on film as opposed to video, often with the final product premiering in theaters. This difference, coupled with the quality of the **CHERI INTERNATIONAL** content, gives this service a strong, voyeuristic appeal which broadens the spectrum of content in adult Video On Demand. **CHERI INTERNATIONAL** attracts subscribers of new ethnic groups, those who prefer foreign content, as well as those with a proclivity for a specific ethnicity.

HOW IS CHERI INTERNATIONAL PERFORMING?

Our excitement regarding the **CHERI INTERNATIONAL** content is contagious!

We believe Trans Digital Media affiliates should always have the most cutting edge programming options available, and 4 of the top 10 MSO's already agree. Subscribers are clamoring for their Cheri International! Buy rates from our December 2006 launch indicate that Cheri International has already carved out a niche for itself and is a significant contributor to increasing revenue and cash flow on the Adult VOD platform.

Let Cheri International not only satisfy your existing customers but increase your revenue in the adult category without cannibalizing your existing program offerings.
